If within 72 hours, a licensed veterinarian finds the puppy to be unhealthy or unfit for sale, the puppy may be returned for a new puppy when one is available provided the puppy has not been injured or neglected. The licensed veterinarian must provide a written statement deeming the puppy "unhealthy for purchase". Valness Yorkies LLC will replace pup or refund your purchase price in exchange for the "unhealthy for purchase" written statement, that pup's registration given with that pup at delivery and all medical records to date.

If before pups first birthday, a licensed veterinarian finds any life threatening, untreatable, genetic health issues with your pup bought from Valness Yorkies LLC you may return the pup and Valness Yorkies LLC will replace pup or refund your purchases price in exchange for that pup back, including the registration given with that pup at delivery and all medical records to date. NuVet Plus is made in the USA using natural, human grade ingredients that are formulated in an FDA registered pharmaceutical laboratory.

Veterinarian recommend, NuVet Plus was designed for dogs at every life stage; from supporting a puppy's maturing immune system to helping to protect against issues later in life.

We are so confident NuVet Plus will benefit your new puppy; we will extend the terms and conditions of my guarantee by 1 year. ### **Hypoglycemia (low blood sugar)**

Pups must be offered food at least once every two hours. If they do not eat they can become hypoglycemic. Some of the symptoms are weakness, lack of coordination, loss of appetite, pale gums. The best way for me to describe the symptoms is "they act like they are drunk"! If you notice this offer your pup warm sugar milk and notify your veterinarian. If he/she is not interested in the warm sugar milk get him/her to a veterinarian immediately! If your pup has symptoms more than once notify your veterinarian immediately! Illness/death due to hypoglycemia is not covered in this guarantee because any pup released from Valness Yorkies LLC has not had any issues with hypoglycemia arises after they have left it cannot be our responsibility as we have no control over when and how often you feed your pup. We can only make you aware of the ways to avoid hypoglycemia and its seriousness.

Valness Yorkies LLC is not responsible for: shipping charges unless for a pup that had life threatening, untreatable, genetic health issue. Valness Yorkies LLC is not responsible for; veterinary bills once pup leaves Valness Yorkies LLC premises; landlord disapproval; allergies; reproductive ability, potty training ability or the temperament of the puppy, family disagreements; or anything else not written out in this agreement. We will, however, always give advice and/or help in any way that I can to ensure the best for my pups. This guarantee does not cover common conditions such as, but not limited to, over/under bite, luxating patella's, hernia of any kind, trachea problems, low blood sugar, internal and external parasite, loose stools, or any conditions that can be corrected with veterinarian treatment. Hair length and/or texture are not life-threatening health issues. Valness Yorkies LLC cannot guarantee a pup's adult weight or color. Although this puppy has been vaccinated and dewormed, no guarantee is given against these due to their unpredictable and highly communicable nature.

This guarantee is void if pup/dog has not been given shots as directed by a licensed veterinarian, taken care of properly or has been neglected and Valness Yorkies LLC will notify authorities. Please do not expose new pups to any other animals until they are current on their shots. If you must expose them to other animals, make sure the other animal is

current on their shots! This guarantee is your receipt of guarantee and must be submitted to Valness Yorkies LLC along with licensed veterinarian's written findings.
